

Rita Ekhaus

I was a current student in the ceramics class (for Seniors) and found it very helpful. I am 84 yrs old and spent much time as a youth AT " The Edgies". That's where I learned to sew, do leather crafts ,jewelry making. That was back in the forties.

I'm back in the neighborhood since 1998 and zeroed in back to the EDGIES when I got here. No doubt things must progress but the history of the Art school is so historic and GREAT that it should be Preserved and Continued for more than its' historic value.
