

S. Cropper

So many facilities for the arts are being downsized or closed - please do not let this happen to your studios. The arts are vital to humanity, and to the energy of NYC. If you renovate as planned, the outcome will be beyond unfortunate; it will represent a massive loss to the community of artists (in all media) who depend on these studios.

Further, this renovation will ultimately cause you to lose students, both current and future. The Educational Alliance has a long & unique history of providing classes and studios for art & craft students - please do not let this be lost! Consider your past before you throw it away carelessly.
